N. B. Special attention is called to the various abbreviations occasionally used in this catalogue, to indicate the condition or state of preservation of the pieces offered. BFR Barely fair; VFR Very fair; G Good; VG Very good; F Fine; VF Very fine; EF Extra fine; PF Proof.

Copies of this Catalogue, giving prices realized, neatly executed in red ink, 50c. Cash with order. Acquaint yourself with the prevailing rates for coins, etc. Many collectors order them.

In the matter of Coin Collecting, there is no outlay of funds that brings equal satisfaction, to that expended for priced catalogues of current sales.

Coins and Medals are sold at so much per piece. Kindly make your bids accordingly. Do not bid by the lot. If a lot contains 10 pieces and you desire to offer $2.00 for it, make your bid 20c.

My terms for buying are 5 per cent.

Auction Sales are strictly for cash. Parties unknown to me must send a deposit covering at least 25 per cent. of their bids, otherwise they will not be accepted.

Collectors with experience have found that all catalogues and all sales are not alike.

My attributions will be found accurate, descriptions ample for recognition and the grading of condition, fair and just, with an absence of lottery throughout the catalogue, also a sparing, appropriate and justified use, of the word rare. Special care and attention to these important matters, featured my first coin sale catalogue and it has been uniformly maintained in all of my one-hundred and ninety-two public sales.

370 Ships | Colonies | & | Commerce (sentiments of Napoleon Dies by W(right) & B(ale) N. Y. Thin flan. Ex. Fine. This widely known firm of engravers, existed under the style here given, from 1829 to 1834. Therefore, we have data for the appearance of this type, which gained such popularity that upwards of 40 varieties, have been found. I think it a reasonable inference if not a conclusion, that they were the inventors and pioneers, while others were their companions and followers. The few points presented or available, on which to sum up or base an opinion, seem to sustain this view and shadow all others. Judge Lees in his admirable arrangement and treatise, published in 1916, has proved the master of a series having a single type with many trivial die differences. In regard to the letter H. found on a large number of these Tokens, the Judge states it as "probably the" initial of Heaton. I believe the period far too early for the noted firm of Birmingham coiners. My own reference to the letter, on page 38 of my work on Hard Times Tokens, judged as about the same period, favors Edw. Hulseman, a New York engraver, 1837-41. Halliday of Birmingham might be brought in here, but it would lead to a long story. I leave the "gates ajar" on the two subjects.
